Carton box 5-15 kg

About Us

Laki LLC was founded in 1992. by family Obradovic, in town Arilje, western Serbia. This region, near city Pozega, is famous for orchards, fields and forests that are producing some of highest quality fruits in the world.

Enjoying one of Europe's best microclimates for fruit production and with agricultural tradition that dates back centuries, we are producing frozen berries like raspberry, blackberry, blueberry, strawberry, sour cherry and plums.

Surrounded by most fruitful fields...

...with latest technology...

Factory

Attempting to preserve the best from nature of this area for consumers worldwide, we have built cold storage in heart of raw material production. Storage and processing capacity of more than 4.000 MT and modern equipment allows us excellent production capability, as well as accommodation to specific partner's requests.

Certificates IFS 6.1, BRC 8, GLOBAL GAP and SMETA prove that we are constantly seeking highest standards of quality and food safety.

Team

We highly value our workers – they have technical knowledge and practical experience necessary for this job.

In 2016. we engaged in partnership with MPI fruit company and furthermore strengthen our management team.

We know that only satisfied employees can help us maintain and continuously improve our high quality standards in all departments and that's why we insist on promoting their technical and personal development.

...and skilled employees...

...we are giving you our best
